

Bosphorus Likely Produce Greatest Decision of War

The British United Press military correspondent, Major H. MacLachlan Bell, looks again towards the Balkans and Near East. He believes that on that front the "great battle of the war" will take place. — He tells the "Herald," as he put it. Major Bell looks forward to seeing Russia as an "associated power" with, perhaps, an understanding with United States in the Far East regarding their common enemy, Japan. — EDITOR.

By MAJOR H. MACLACHLAN BELL.
British United Press Military Correspondent, Edinburgh, Scotland.
The "Herald" has it known that even if Hitler's forces cross the Bosphorus, it is not the end of the fight. The "Herald" has it known that even if the Axis gain the shores of the Black Sea, grip the straits of the Dardanelles and win a decisive victory in Turkey.

This will be open warfare with emphasis on the difficulties of natural terrain, which, perhaps, will be with a defensive advantage and the Russian with an inviting left flank to attack.

AIR IS IMPORTANT
The whole strategy of successful attack, with its emphasis on air, can win and hold air supremacy. It will Russia fight, it will be the hold the air? Those who are to determine what Russia's strategy will be in Germany, Italy and the words of the air fields of Iraq and the Dardanelles must go back to the revisions which took place after Italy's declaration of the Balkan campaign and her campaign in Ethiopia.

NAZIS NEED VICTORY
Hitler, Keitel and Brauchwitz must have a complete victory at some point this year... and a victory with "old and spoils" as it were.
The decision on the Balkan front once entered upon will not permit failure. He who crosses waters must reverse as a victor once he has launched his armies or he returns to die on the brink of his first triumph. The German staff has its greatest triumph to achieve if it can win and hold the straits—it is their own Sedan if they fail.

As to other possibilities:
A Russian pact with Germany, Turkey, the victor? A German-Soviet-Turkish pact with British Near East possessions as the spoils?
BRITISH ARMED MUSLIMS
There are all feasible at round table clubs for the purpose of academic debate. But the faith of the east is Muslim, and Islam does not care for conquests, though she tolerates British possessions.

THE AX KHAN HAS PROCLAIMED
against Germany and Italy. It is to be remembered, too, that the British mission.

The eastern Mediterranean front in its petrole enters and leaves Turkish waters as an ally, and is considered such, for floating forces, with Great Britain, that the latter shall guard the entrance to the straits and help secure the passage of either a Turkish or Greek army as occasion warrants their passage to each other's assistance.

RUSSIA UNLIKELY ALLY
The Battle of Dunkirk has very visible effects in that section of Asia Minor, where it was noticed that German air arm could not force the destroyer fleets from the channel nor prevent the heavier ships from being used as floating forts, from which went a barrage of anti-aircraft and air power could not break through before the evacuation was completed.

From that date on, Russian official press releases commenced to be conscious of the British air force and of recent months have consistently published its successes against German bombers. There is a degree of psychological preparation in this for the Soviet readers. They are being taught of British prowess so that when Russian forces go into action they will know the value of the British air arm.

It is not likely Russia will formally become an ally. More likely, she will be another "associated power".
That Russian strength in the air is much less than that of Germany is unlikely. What may be Germany's machine strength is more than made up by Russia's massive reserves.

REALIGNMENTS COMING

If the Soviet could be sure of United States air in the Far East, even if it were limited to the barest acknowledgment of association in a common cause, most observers feel she would act with promptitude and in a "total war" sense. There are grounds for assuming the United States and Russia may be able to complete accords for essential trading parts, both parties shelving their political ideals till more normal times.

The war on Japan is already under way. American economic measures are, in effect, war. If you care to allow a neighbor nation raw materials and time your markets to him because of divergent diplomatic policies, you are making war, not merely peace.

The enemy in the Far East is Japan. He is not likely Russia will formally become an ally. More likely, she will be another "associated power".

NORTHWEST TO CAMPAIGN FOR U.S. TOURISTS

Spokane Conference Maps Travel Plan—Alberta Man Vice-President

SPokane, Wash., Nov. 2.—(AP)—The Pacific Northwest Publicity and Tourist Association, concluding its annual one-day meeting, elected W. G. Oliver of Spokane president Friday and decided to return here for its 1941 convention.

The Association decided to concentrate its efforts to bring tourists into the northwest on displays at travel shows scheduled for the week of 1941, according to an announcement made today by officials of the Chrysler Corporation of Canada, Limited.

A combination of simulating transmission with fluid drive is standard equipment on all Chrysler models. A much improved conventional transmission is used in the Royal models with fluid drive and power gearshift available at extra cost.

IS LEADER
More massively beautiful than ever, Chrysler for 1941 continues to be a leader in the high-powered automobile field, improved in appearance, luxury and powerful performance. The Chrysler Royal line measures 211 1/2-inch overall.

LABOR LEADER URGES UTMOST IN WAR UNITY

Sound Industrial Relations Are Needed Declares Tom Moore

OTTAWA, Nov. 2.—(CP)—There is a need for sound industrial relations if the working men are to fulfill their duty of providing an unswerving front of munitions and supplies for the defence of democratic rights and freedom.

Tom Moore, president of the Trades and Labor Congress of Canada, said Friday night.

Mr. Moore spoke at a national meeting of the Canadian Broadcasting Corporation at the invitation of the joint committee of the senate which has arranged such a series of youth training and similar schemes.

MORE HORSEPOWER
Fluid drive and simulating transmission are two of the greatest improvements of the new Chrysler Royal Windsor for 1941. But in all models, horsepower has been stepped up by refinements in the engine design and the use of a new type multiple jet carburetor, which both increases horsepower and promotes economy of operation.

A new, MORE BEAUTIFUL Chrysler!

Wider, Lower, Space-Flared Bodies... Added Elbow Room

Richer Fabrics, Tailored to Taste... Harmonizing Plastics

NEW AIRFLOW BODIES... wider, lower! New radiator design... simple, massive, commanding! New, longer hood! New sharp backward-sloping windshield... thinner door posts... bigger curved rear window. Bells belted out at the window line... for beauty, for room! Extra elbow room in rear compartment.

The lot word in comfort... extra leg room. Lower center of gravity, with lower floor, retains generous head room. Lower, stronger, double-channel, welded frame with new hydraulic shock absorbers provides a still wider floating ride. Steering is effortless and sure.

Inside and out, the 1941 Chrysler are a symphony of color and tailored to your taste! The exquisite new instrument panels inset with colorful new plastic... matching plastic door upholstery fabrics that will suit your individual taste in color and texture!

Beneath those deep, wider seats, the silent Airflow! Every fitting speaks real quality! Once again Chrysler Engineers have seen to it that a subtle complement will be implied when people see them remark—

"I see you drive a Chrysler!"

REASONS FOR NON-PARTISAN CABINET GIVEN

Manitoba Premier Stresses Points Which Prompted Suggestion

WINNIPEG, Nov. 1.—(CP)—Necessity for securing the support of all political groups in fulfillment of a five-point political program motivated Premier John Bracken's proposal for a non-partisan government in Manitoba.

This was disclosed here Friday when Mr. Bracken released press conference statements in which he explained the reasons for his suggestion.

The premier announced his non-partisan government at the beginning of the week after he had secured the support of Conservative and Co-operative Commonwealth Federation members for the Union government.

Part of the five-point political program of the Union government is the support of the premier's plan and it is expected Mr. Bracken will make a definite statement shortly on the subject of his Union cabinet.

REASONS STRESSED
The following points were stressed by Mr. Bracken at the hearing of the proposed non-partisan cabinet in the Manitoba legislature.

1—Maximum cooperation with the Dominion in Canada's war effort.

2—Implementation of the Simon-Dubois plan for the development of the St. Lawrence valley.

3—A vote of confidence in the government.

4—A vote of confidence in the government.

5—A vote of confidence in the government.

6—A vote of confidence in the government.

7—A vote of confidence in the government.

8—A vote of confidence in the government.

9—A vote of confidence in the government.

10—A vote of confidence in the government.

11—A vote of confidence in the government.

12—A vote of confidence in the government.

13—A vote of confidence in the government.

14—A vote of confidence in the government.

15—A vote of confidence in the government.

16—A vote of confidence in the government.

17—A vote of confidence in the government.

PROVINCIAL BRIEFS

ROCKY MOUNTAIN RIFLE

Chief Predicts Milder Weather

Chief Two Horses is in town for a lot of fall shopping and when told that an October Indian often predicts a mild winter he said his signs say the same thing. He places his faith in the Chinook winds which have been seen over the mountains earlier this fall than for years. This is an infallible sign of a very mild winter, according to Chief Two Horses.

Eight boys from Rocky, Earl Thoms, Teddy and Garth Greenaway, Paul Peterson, Douglas McLain, James Horne, James Smith and Harold Ayer have signed applications and will go in to Red Deer once a week for training as air cadets. When the Penhold unit opens, they will go there for their weekly instruction.

W. J. Kirby, acting for the Board of Trade, has had a fence put around the site of the old trading post here. On this site is a stone cairn to honor David Thompson, the explorer, and two stone chimneys that are all that are left of the old fort. These chimneys were restored this summer, and made weather proof.

Alexander Condy of Kamloops, B.C., who was reported to have killed the destroyer Margaret Anne, joined the navy from Rocky Mountain House ten years ago. He is now a sergeant in the navy. He was reported to have killed the destroyer Margaret Anne, joined the navy from Rocky Mountain House ten years ago. He is now a sergeant in the navy.

The guild donated by Mrs. Nelson Mackay of the Red Cross was raffled recently and the total take was the lucky one held by Arnold Erickson from Foothills, Alta. The raffie netted the Ladies' Work committee \$30.00.

The Bawlt high school girls' sports at the Bawlt movies and visited a day soon, a picnic which will be donated to the Red Cross.

The Bawlt high school students will entertain the students from Hafford, Longbeach, Selkirk, Killam and Strath at their annual party and frolic. The Davidson's orchestra has been engaged to furnish music for the hop.

CORONATION

Lockhart

Saturday evening the Catholic Women's League served a chicken supper in the Royal Crown hotel. It was well attended and most successful.

The monthly meeting of Trinity Ladies Aid will be held at the home of Mrs. Ellis on Thursday, November 7.

Rain and snow put a definite stop to shooting which had been going rapidly ahead under ideal conditions for several days and which had reached the winding up stage. Some ten percent still remains to be finished.

Roads are in almost impassable condition even after five days of sunshine and warmth, and the snow has not yet disappeared from the roads.

Due to pack of storage facilities in the field and immediate transportation facilities which have been dumped in by straw stacks here and there throughout the country.

LACOMBE

Members of the Lacombe platoon of the Veterans' Volunteer Reserve were reviewed at a special parade here Wednesday evening by Capt. Frank Egan of Alia, C. company commander.

Horseback riders, Young People's Union, and the Lacombe Reserve Club were reviewed at a special parade here Wednesday evening by Capt. Frank Egan of Alia, C. company commander.

A. Nalder, Rimby, formerly a member of the Alberta Provincial Police, is now a member of the Lacombe police force.

INSEFAIL

The Lions Club is again to the fore in community work. Last year they provided milk to many of the school children and during this coming week, milk will again be supplied with soup and a bit of meat. George Ingham and Ted Jensen with his two sons are off to the mountains for their annual big game shoot.

Abraham Lincoln Boyer, pioneer of the Lacombe district, passed away in the Lacombe hospital on October 28. Mr. Boyer was born in South Dakota on January 4, 1868 and with his mother the late Mrs. Helen, and a sister, emigrated in 1902 to Canada and settled on a homesteaded two miles south of Lacombe. Funeral services were conducted by Rev. Wm. Huston in the United church here. Burial was in the Lacombe cemetery. Nelson Cumberland, Robert Kilpatrick, Bruce Kilpatrick, Martin, Percy and Harold Thomas, surviving relatives are his sister, Mrs. Frank Johnson and her daughter Mary.

Loss of cattle has been reported from different localities, in most instances, from an undetermined cause. Among those whose herds have been depleted are W. Broderick and E. A. Connolly & Sons of the Lockhart and Symons districts, breeders of registered Herefords, and former being two valuable cows, the latter a fine quality bull calf.

Invitations are being sent schools and the public, to attend a reception, to be given in the Lockhart school which is nearing completion.

LELID

The snow, sleet and rain at the beginning of the week stopped threatening on the few remaining farms not yet finished. The district roads are in poor shape, in some places almost impassable.

Rev. H. Shatz, pastor of the German Baptist church here for the past four years, left yesterday for Morris, Manitoba. On Wednesday evening at the local church a farewell social was held in honor of the pastor and his wife. A presentation was made on behalf of the congregation and to Mrs. Shatz from the Ladies Aid Society.

HARDISTY

The Ladies Aid of St. Paul's United church held their annual chicken supper here recently, taking in \$40.

Hallowe'en was a gala night for the "gang of Hardisty" and although there was no serious cause for concern, there were a number of minor cases of vandalism.

The town basketball club has been reorganized. The new executive is as follows: Dr. M. E. Geisinger, president; Mr. M. Stuart, secretary; Mr. J. P. Preece is president and Miss J. Johnson secretary of the women's club.

King And Dictator

King Michael of Rumania, who recently succeeded his ousted father, King Carol, is shown with General Ion Antonescu, right, president of the council and dictator of Rumania, as they look the salute at a troop review that followed a special church service in Bucharest.

WILDWOOD

The Lutheran Church here has been a great success. Under the direction of Mrs. Geo. Gouling and Mrs. John Skaggs of Wildwood the Lutheran church about \$30.00 at their affair in the Wildwood Community Hall. The Lutheran pastor Rev. Storch, has accepted a call to Trochu, Alberta.

Several hundred pieces of old clothing was turned over today to the local Red Cross Society. All these pieces were collected in a huge, to be used for the girls of the three Guide groups. The local Red Cross are fixing up all the clothing for war refugees.

RIMBY

At the monthly meeting of the council of Blindness, municipal district, held in Rimby, Saturday, returning officers for the annual election on February 13 were selected. Dr. D. Taylor will be the returning officer and the following deputies were appointed: David A. Stuart for election law where the election will be held in the Legion Hall and Peter Chubb for division 13, where the election will be held in the Riverview school house, north of town.

Today's Communiques

British

LONDON, Nov. 2.—(CP)—The air ministry issued the following communique Saturday:

"Last night bomber forces of the Royal Air Force carried out sustained and successful operations against railway communications in Germany. Several of the principal stations and goods yards, with their adjoining buildings, were bombed. Other targets attacked during the night included the synthetic oil plants at Magdeburg, and Gelsenkirchen, an industrial factory near Gelsenkirchen, the Krupp armaments works at Essen where a blast furnace was bombed, and a railway station at Dinslaken."

"While these operations were in progress, other forces concentrated their attacks on airfields in enemy-occupied territory. Fifteen airfields were bombed and aircraft on the ground and about to take off for attacks on the country were destroyed or damaged."

"Alterations of the coastal command attack plan engagements at Cap Gris Nez."

"Two of our aircraft are missing."

LONDON, Nov. 2.—(CP)—The ministry of air and home security issued the following communique Saturday:

"Last night enemy air attacks on this country, while slightly more widespread than for some nights past, were on a large scale and to midnight had almost ceased. A small number of enemy bombers made a short attack on the London area in the early hours of the morning."

"The attacks were directed mainly at the southeast, including the London area."

"A small number of bombs were also dropped on the district in East Scotland, two towns in the Midlands and a few districts in Lancashire. Throughout the country there has been comparatively slight and has been confined mainly to private houses."

"The number of casualties reported is not heavy but includes some persons killed."

"As already announced, five enemy bombers were destroyed during the night. Five more are known to have been shot down and that 11 aircraft in all were brought down during yesterday's attacks on this country. Seven of our fighters were lost but two of the pilots are safe."

Greek

ATHENS, Nov. 2.—(AP)—The home security ministry issued the following communique Saturday:

"The enemy made the following raids today on Greece:

"One on Piraeus where three persons were slightly injured."

"Four on Salonika where 59 were killed and 84 injured, of whom four were civilians."

German

BERLIN, Nov. 2.—(AP)—Text of a German communique Saturday on British air raids:

"In the evening of Nov. 1, Amsterdam was bombed by the Royal Air Force. British fighters dropped explosives on exclusively residential sections of the city. A military hospital was severely hit. Numerous wounded soldiers were killed, according to reports at present available. Furthermore, seven Hollanders were killed in the city."

"On the other hand, the British and seriously wounded is not yet certain. It is feared the number of fatalities may increase. The manner of this action against Amsterdam corresponds exactly with the method of previous raids on general Netherlands towns."

"A story one later Berlin was attacked. A number of British bombers tried to reach the Reich capital. Intensive German defense fire caused most of them away in a northern or southern direction."

"Only scattered enemy planes succeeded in firing over the city at a high altitude. They dropped explosives and incendiary bombs on residential and suburban sections."

"Incendiary bombs hit the world famous Reichstag building, which suffered previously. Attacks were quickly quenched before they caused greater damage. Several were killed and injured among the civilian population."

Drought "Down Under"

While farmers in Canada are wondering what to do with a bumper crop of wheat their counterparts in Australia are facing the contrary problem. Crops there are poor, and harvest-time near enough at hand that no considerable improvement can be looked for. Drought, that word which so many farm families in western Canada learned in late years to understand as they never did before, has struck the Commonwealth of Australia. It has strangled the growing crop, created a farm relief problem for which \$50,000 have been appropriated from the public purse, and started a homeless migration of dried out farmers who have found employment in munitions plants.

Last year's Australian wheat crop totalled 210,000,000 bushels. This year's crop is expected to yield not more than 100,000,000 bushels. There is a carry-over of about 300,000,000 bushels from last year. The population being approximately 7,000,000, two-thirds of the present crop will be required for domestic consumption. The Commonwealth, it seems clear, will not be a very serious competitor with Canada for British trade during the coming wheat marketing season.

War And Unemployment

Official figures given out at Ottawa show that during the first year of the war the number of persons on relief in Canada decreased more than 50 per cent. During 1939 alone there were 1,000,000 fewer unemployed than in 1938, and from March to the end of that month more than 51 per cent.

The enlistment of men and the expansion of war industries did not end the extraordinary change in the situation. Better crop conditions restored scores of thousands of farm families to active life. The war, directly and indirectly, a major factor in the change is beyond doubt, particularly effective in the urban centres. Unemployed unemployment in Canada is 44 per cent fewer than a year ago.

This of course is highly satisfactory in itself. It is also interesting in that it supplies a close-up view of one important reason why there was little unemployment in Germany and in Italy—and in Russia—prior to the war. In countries where the young men—precisely the class who found it so hard to get employment in Canada—were taken off the labor market and put to work, while equal or larger numbers were engaged in the making of military supplies and munitions of all kinds from boots to tanks, it is not surprising that unemployment was kept at a minimum. The McKinley Bill has gone into effect, and the export of Canadian farm products to the United States has slackened.

Producers of grain and other farm products in Canada are not alone in being preserved in the Yellowstone National Park. Game has been spared and being preserved in the Yellowstone National Park. Game has been spared and being preserved in the Yellowstone National Park.

Disarmament is a goal which is being pursued in the United States. The McKinley Bill has gone into effect, and the export of Canadian farm products to the United States has slackened.

are outmanned ten to one in men and more than that in equipment. And behind the Italian forces are German armies, poised in strategic positions from which they can aid should the Italians be beaten. The cruel fact is that modern battle goes to the side with the big battalions, and seven million men cannot fight a hundred millions.

The fate of Greece necessarily depends upon the amount of aid that can be given to her people. Britain is as yet the only source from which help is coming. While it help cannot be measured it will be mainly in the form of food and clothing. The employment of which Greece is well situated, and against which the Italians have not turned themselves to be particularly formidable. By their stout resistance the Greeks have gained time for this support to reach them, and the invaders are in prospect of still rougher going than they have met thus far.

If Turkey and Russia block Hitler's road through Bulgaria, as they seem to be doing, the war will be restricted to the Balkan northwest border, and even the combined forces of Mussolini and Hitler will have their work cut out to make headway through the few military units leading down into Greece. If Turkey and Russia do not keep the Bulgarian road closed, the whole Balkan peninsula is in the hands of the German eastern front become the main theatre of conflict.

Nearly twice as many persons have been killed on highways in Ontario during the present year as have died in Canada's fighting forces since 1914. The number of deaths is about \$12 and 415 respectively. How about mobilizing a brigade of Ontario motorists and sending them overseas with their death-dealing cars?

Butler prices in Edmonton have gone up about 15 per cent in the last month. In keeping with a general rise in the Dominion. A statement by the price board at Ottawa indicates that the increase is due to failure of farmers to supply the market with milk, and adds that the movement is being kept under close observation. The consumer will be reminded of the increase in his living costs by the knowledge that it is the result of natural causes.

Public opinion polls, not necessarily correct in their reading, show that Mr. Roosevelt's administration is popular. There is, on the other hand, a new wave of political prophesy emanating from natural observers, some of whom are in Canada, predicting the downfall of Mr. Roosevelt. Mr. Wilkie's election.

One thing is sure: the United States has pulled out of the depression. The policy of isolationism is being abandoned in accomplishing distinction. Whichever of their respective policies may be adopted, the American public will be carried out with vigor and intelligence. This column does not propose to go on a long list of predicting the election of either candidate.

We naturally have our choice, our hope and our desire. However, we prefer to remain quiet. The McKinley Bill has gone into effect, and the export of Canadian farm products to the United States has slackened.

From The News Side Glances -

By Harold L. Weir

It is reported that Britain has undertaken to bomb Rome in the war against the Italians, not only because of that city's religious associations, but because of its proximity to the Vatican whose holy relics and precious treasures should not be submitted to the risks of violence.

It is a wise and pious decision that will be applauded by every Christian in the world. But why should Rome alone be sheltered behind the wall of sanctity?

One would have expected that every reckless dauber would have written in horror at the bombing of St. Paul's in London, of Westminster Abbey, and of Canterbury Cathedral. It is the epitome of a long line of Anglo-Catholic bishops who derive their apostolic succession from St. Peter himself.

And what about the holy ground in Greece? There is evidence that St. Peter lived most of his post-Crusifixion life in Corinth from which place he undoubtedly wrote both his epistles.

St. Paul issued his epistle to the Corinthians from Macedonia and his two epistles to the Thessalonians from Athens. There is some quite unimaging irony in the fact that his epistle to the Romans was written from Corinth, an important city in ancient Greece.

The value of St. John, which is recorded in the Revelations, occurred on the island of Patmos, also in Greece.

We are to accept, as we do, the inevitability of passing leading down into Greece. If Turkey and Russia do not keep the Bulgarian road closed, the whole Balkan peninsula is in the hands of the German eastern front become the main theatre of conflict.

It is a poor role that doesn't work both ways.

As the American presidential race gallops into the home stretch, predictions as to the outcome gradually become more vehement and positive.

Public opinion polls, not necessarily correct in their reading, show that Mr. Roosevelt's administration is popular. There is, on the other hand, a new wave of political prophesy emanating from natural observers, some of whom are in Canada, predicting the downfall of Mr. Roosevelt. Mr. Wilkie's election.

One thing is sure: the United States has pulled out of the depression. The policy of isolationism is being abandoned in accomplishing distinction. Whichever of their respective policies may be adopted, the American public will be carried out with vigor and intelligence. This column does not propose to go on a long list of predicting the election of either candidate.

We naturally have our choice, our hope and our desire. However, we prefer to remain quiet. The McKinley Bill has gone into effect, and the export of Canadian farm products to the United States has slackened.

On The Record

By Dorothy Thompson

How to Make Peace During the campaign I have heard nothing important except the fear of war has been whipped up into a panic, and the promise of peace has been handed out by the candidates. Neither is it so simple, however, has offered any suggestion as to how peace is to be achieved.

Mr. Roosevelt is, it is true, though Mr. Wilkie does not agree with them, a man of peace. He is a president, a number of influential people who think that the best way to get peace is to make it a reality, and collaborate with the "dominant" power in the world. The program of the Administration is to go on asking Britain and France to join in breaking the dominant power with American war and machinery.

Neither of these policies seems to me to be realistic. A realistic policy would look at the situation as it is and try to find the way out. The way out is to make it a reality, and collaborate with the "dominant" power in the world. The program of the Administration is to go on asking Britain and France to join in breaking the dominant power with American war and machinery.

Glamor Debs Want Jobs—But Peel Eye For THE Man

Seven Cities Present: The Typical Coming Out Girl—New Yorkers Need Not Apply

Glamor debutantes across the nation are going to work as living when party days are over, with one eye peeled for a man. The career girls, four to three, in a work-outside poll of the pick of the crop from seven representative American cities—New York included. Girls remaining at home are Peggy O'Neill who is going to be a "lady," and Fernanda Wasmaker and Betty Cook who are both ready for matrimony. Sally Green and Peggy McManus are going to be models. Rosemary Ostrander will be a school teacher. Barbara White, who believes a woman can have both a career and a family, wants to be a laboratory technician. Like Miss Wasmaker and McManus, she is a natural blonde. All seven expect to get married some day, and here is what each wants of her husband: Miss O'Neill, frankness; Miss Wasmaker, kindness; Miss Cook, ambition; Miss Green, compliments; Miss McManus, "marvellous" personality; Miss Ostrander, sense of humor, and Miss White, romance. Unlike the much-publicized New York variety of debutantes, these have been raised in the society of the home and not of the cafe.

Youth Parade

 By BERT NIGHTINGALE, Jr.
 THERE used to be a popular theme going the rounds which went by the title, "When Pa Was Courting Me," remember it?

PA must have been quite a boy in those days. That is, if we are to judge by some of the Hallowsen pranks they used to play in days gone by. We were coming down to work in the street car Thursday night, when someone happened to say that it was a grand night for the kids to come out for apples. Then someone else said, yes, but the kids these days don't enjoy Hallowsen in the same way as they used to. Here's that we asked, sticking our necks out, and pretty soon the heavy veteran who had made the remark was telling us all about the stunts they used to pull when I was a kid.

THE old one trotted to his feet then and staggered out of the car. We got out at the next block and believe it or not, who should we bump into later on than the old veteran, waving his hand in the air and laying down, heartily with us on the "young devil" we put that there string on the purse down the street and then yanked it away when I tried to pick it up.

YES, Grandpa, there is something in the matter with modern kids. But damn it, they're still delivering the goods, aren't they?

FOOTNOTE: The newly-organized Youth Training committee of Cold Lake, Alberta, is sponsoring a Dominion Provincial Youth Training school on November 15-20. Six graduate university instructors from the Department of Extension, University of Alberta, will give free instruction to classes for boys and girls during the three-week course.

Since the school is designed to help inexperienced rural young people, a special effort is being made to bring the students from the communities where it is held, would benefit from the instruction.

AND some of the stunts were decidedly according to him. One of the favorites of his time was the old gag of knocking on a farmer's door and getting the whole family to come out on some feeble excuse while another bright youngster would sneak into the house and look the inmates out, snoring by a starry window. The occupants would then have a heck of a time getting back in. By the time of course all the pranksters would have disappeared by the devious methods known only to youth.

THEN of course there were the age-old eggs of removing chairs, rapping windows and knocking over old buildings. "More damn fun," said the old-timer and sympathetically we agreed with him.

THE weather wasn't up enough last week to allow Tech to go ahead with the scheduled sports day. Members of the teaching staff acted as starters and timers.

MORE CLUBS And still more clubs are being formed. The First A.C. Club has been revived and at the first meeting held recently, Edward Dunlop was elected president. Jack Mackay, vice president, and Fred Haggis, secretary. An "Imperial Youth" club has also been formed with Gertrude Conroy as president, Ruthie Allen, vice-president, and May Hulton, secretary. Mr. Clark is the teacher in charge.

One of the fall dances is November 8 and not November 15 as previously announced.

SOUTH SIDE COMPOSITE By Ray Banham

After suffering defeat at the hands of Westgate, some rugby teams are now out of the running for the city championship.

The South Side, and also made the convert, bringing our Dan to the point, twenty-seven to Westgate.

Students on the South Side are beginning to wonder when we are going to have our first two good movies, have done well in social activities. November is a good month for a lot. What do you think, Mr. Literary Convent?

Edmond High School Students Are Bulletin Correspondents

WESTGLENS By Matt Travers

This is the biggest week in the history of both the old Westmount and the new Westgate, as our rugby seniors came out in full force to defeat South 38-6. For the first time since Pinksie was combed, the Westgate seniors have emerged as inter-school champions, their record throughout the playing season shattering all others. They have 125 points to their credit with only seven against them. Westgate is proud of its senior rugby team, comprised as it is of men who are gentlemen in school and out.

Another cheer goes for the news that the new school will be used for use on November 12. Everyone who has been through the building has expressed his admiration of the classrooms, gym and hallways.

Room representatives were chosen on Tuesday with Bob Weeks, president pro tem to pilot the ship until we get established in our new quarters.

TECHNICAL By Leon Kagan

 With the news of the sinking of the *Margate* came the news that four former Tech students were lost. Bernard Lewis, who attended in 1929-31, Cedric Dell, 1924-26, Thomas Lamb, 1931-32, and Edward McNeil, 1934, all went down with their ship. The students and staff of Tech join in sympathy with survivors here.

Among The Clubs

Annual conference of the Edmonton-Lacombe council will be held November 9-11. It was announced last week. A service at Christ Church Saturday evening will be the week-end activities. Sunday service will be held at All Saints Cathedral and St. Paul's. A book sale at Christ Church followed by an "ideal program" demonstration and a dance in the evening will bring the conference to a close.

A meeting was held Thursday to discuss the formation of a booster club among the girls, to aid at school activities. Blanche Tivolski is in charge.

The date for the next I.C. has been set for Nov. 29 and will be staged by the dramatic club, directed by Olive Oliver. This will be the club's first appearance of the year and it is hoped that a lot of new talent will be discovered amongst the 1940 graduates.

School Elections Holly Contested

A two-party "battle" between the Loyalists and Progressives at Garneau school will take place Tuesday, November 5. Last Thursday's mass meeting of the intermediate students heard candidates from both parties present their platform.

Miss Marie McDowell, Progressive, is running against Laura Stephens, Loyalist, for the position of Literary Society president. Douglas Gresting and William Rice, are party organizers. David Ellis, chairman of the meeting, said the platform of the properly-matched candidates.

The Canadian Girls in Training of Edmonton and District will hold their annual conference on Saturday, November 9, at 4 p.m. in the Y.W.C.A. building. Miss Louise Carver, city work secretary for Alberta will be guest speaker.

Future meetings of the various groups are outlined below. METROPOLITAN The city's girls of the south side will meet at the Metropolitan church, Tuesday, November 6.

Norma Reynolds, well-known in connection with Y.W.C.A. activities, will be the guest speaker. Following the meeting, there will be a social. Ellen Talbot and Peggy Macdonald, supper handmaids.

Fifteen new members were welcomed at the meeting. A Hallowsen initiation ceremony, a Hallowsen party will be held Friday.

SOREWOOD UNITED

A meeting of the club featured the week's activities in this group, with outstanding efforts being made by Robert, Al, and Connel. Other guests, Kaylene and Stella Baptist.

Olive Johnson was made president of the Kluge made public club at elections held at the home of Mrs. Hazel Taylor. Other girls elected were Maureen Kelly, secretary-treasurer, and Catherine Richardson, press reporter. Following the elections, plans were made for a social.

Among those present were: Helen Steele, Sheila Jackson, Helen Giesler, Annabelle Kelly, Margaret Robertson, Leah Lyman and the new officers.

Death Of V.C.

MCGLOTHLIN—Sergeant Jack McGlothlin, 21, of the Victoria Company, 1st Battalion, Canadian Trench Regiment in the First World War, was the first Jew to win the Victoria Cross, died at his home in London, England, last week.

Ken Overlin Bounces Off Floor to Retain His Middleweight Title

Gardiner Uses Hands To Eliminate Rebounds

ST. HYACINTHE, Que., Nov. 2.—(UPI)—Way back in the days of Winkle, Happy Holmes, Heck Fowler, goalkeepers used to be bouncers. By standing on their feet and catching or attempting to catch any pucks which came in their direction. Then a few of the boys began to get the idea of doing their saving from the horizontal.

BOMBERS GAIN SEVEN ALL-STAR TEAM POSITIONS

By Charles Gunning

Winnipeg, Nov. 2.—(UPI)—

The Winnipeg Jets have gained seven all-star team positions in the latest NHL voting.

The Jets' defensemen, Gary Suter and Andy Murray, were named to the all-star team.

The Jets' forwards, Bobby Hull, Ken Reardon, and Andy Murray, were also named to the all-star team.

The Jets' goalie, Gerry Cheevers, was named to the all-star team.

The Jets' coach, Tom Watt, was named to the all-star team.

The Jets' manager, Sam Pollock, was named to the all-star team.

The Jets' general manager, Sam Pollock, was named to the all-star team.

The Jets' president, Sam Pollock, was named to the all-star team.

The Jets' vice president, Sam Pollock, was named to the all-star team.

Maple Leaf Sport Organization One of Oldest Clubs in Province

Maple Leaf Athletic Club of this city claims to be the oldest organization of such a nature in the Province, having been started in 1932 by Henry White, and it has operated continuously ever since that date. In 1937 there was an extension of activities, when several citizens of Edmonton took a hand in assisting the originator of the idea.

Collections Rise But Levy Reduced Tax Report Shows

Issue of Building Permits For 10 Months Shows Million Dollar Increase Over Last Year Period

\$5,090,000 Construction Program Near Completion, Public Utilities Revenues Show Gain Of \$200,000

EDMONTON, Alberta,
October 31, 1940.

TO:
THE ALDERMEN AND CITIZENS OF
THE CITY OF EDMONTON.

In presenting the report covering the activities of the current year further steady progress has to be recorded.

During 1940

The tax rate was reduced by half a mill.

Tax collections increased by \$93,273.60.

Sales of Tax Sale lands to 30th September were \$148,075.28, as compared with \$115,946.47 for the same period in 1939.

Building permits to 29th October were \$2,516,445, an increase of \$1,000,000 over 1939.

A construction program of \$500,000.00 is approaching completion.

A large reduction has been effected in the rate for Natural Gas.

An agreement for the inter-change of electric power has been consummated with the Calgary Power Company, providing for a standby in case of breakdown of our own facilities.

Bank clearings to date this year have increased by \$14,463.40.

The bank overdraft has been reduced by over \$200,000.00.

The revenues of the Utilities to 30th September were \$3,295,685, an increase of \$200,000.00 over the same period last year.

Telephones installed have increased from 18,604 to 19,424.

Electric light connections have increased from 23,514 to 24,519.

Water connections have increased from 18,006 to 19,017. Street railway passengers have increased from 10,794,529 to 11,591,562.

Power output has increased from 52,671,600 K.W.H. to 57,257,369 K.W.H.

The population has increased from 90,419 to 91,725. The value of the City's assessment has increased by \$1,050,000. This is the first substantial increase in recent years.

It is doubtful if the City has shown such progress in so many directions since the boom period prior to 1913, and the progress now recorded is on a much more solid basis than then. The redemption of the Funded Debt of the City has been placed on a basis within the means of repayment: the Funded Debt of the Utilities has been reduced from a maximum of over \$12,000,000 to \$5,745,000, and what was once the most onerous burden on the City, the matter of tax arrears and Tax Sale Lands, has been changed from a serious liability to an asset second only in importance to the possession of the Utilities. These are substantial matters, and tend to reveal the very real progress which is being achieved in the rehabilitation of the affairs of the City.

Edmonton Tax Collections Lead Whole of Dominion

Tax collections form the keystone in any city's progress or well-being, and in this respect the City of Edmonton takes second place to no other city in Canada. Irrespective of whether a city's tax rate is high or low, and this depends altogether on the liabilities and responsibilities of each individual community, if a city cannot collect its annual taxes, no real progress is possible. Judged on this basis, the City of Edmonton is indeed fortunate in that since 1935 the tax collections have not failed to exceed 100% of the levy, and the year under review promises to be the best in this respect. Up to 30th September the collections were \$3,272,563.74, as compared with \$3,179,290.14 last year, an increase of \$93,273.60, even though the tax rate was reduced by half a mill in the meantime. This makes a reduction of 2½ mills in the past two years. In this connection it should be borne in mind that in 1939 and the preceding years, all construction on General Debt account was capitalized, thus adding to the tax burden in each succeeding year, whereas during the past three years more than half-a-million dollars has been expended on permanent improvements, the funds for which were provided from the tax rate, thus avoiding any future annual charges for interest and redemption. It is from this source that the material improvements to highways and other civic undertakings have been derived.

Substantial Program of Construction During 1940

Another substantial program of public works, totaling approximately \$500,000.00 has been carried out during the present year, including paving, grading and graveling, sidewalks, building, bridges, sewers and a garage building on General Account, as well as substantial extensions to the

Utilities. With the exception of the Water Softening Equipment at the Power House and the Local Improvement portion, all these works were constructed either from current tax funds, or from the Renewal Funds of the Utilities. The condition of the highways and streets remains a major problem, the overtaking of which is limited only by the funds available. During the past two or three years, most of the main arteries leading into the City have been hard-surfaced, the Fort Trail highway being completed in the present year.

Closely related to the matter of construction projects is the method and means of financing them. Since 1937 the City has been fortunate in that funds were provided under the Refunding Plan, and of the total of \$2,700,000 available under that plan \$2,070,000 has been expended, leaving only \$630,000 for future undertakings. Of this amount remaining, \$270,000 has been set aside for the needs of the Street Railway system, and the balance of \$360,000 is earmarked for extensions of Local Improvements, still so urgently needed. It is necessary to undertake Local Improvements on a funded basis, due to the method of repayment by means of annual assessments against individual taxpayers over varying periods of years. There is no other source from which these can be financed except the balance of the monies available under the Fortin Plan. This leaves all general improvements, which are chargeable to the City at large, to be obtained from current sources, as there is at present no prospect of floating debentures, due to the high rate of interest which would be demanded, nor is the latter method desirable in view of the already enormous load of funded debt under which the City has been, and is likely to struggle for many years to come. As mentioned on previous occasions, the funded debt of this City is as large as compared with any other, that to think of increasing it is out of the question, and further improvements therefore should only be considered by way of current account.

Housing Shows Upturn As Building Activity Booms

Building activity, particularly housing, has increased during the present year on a scale greater than any since pre-depression times, the total permits taken out to 29th October being \$2,516,445.00 as compared with \$1,502,929.00 for the same period last year. The Building Inspector reports the following summarization:

Building Permits to October 29th, 1939-1940			
1939		1940	
No.	Value	No.	Value
7 Public Buildings	\$ 390,900	11	\$ 809,751
1 Apartment Building	9,500	2	15,800
32 Commercial Buildings	146,250	32	291,300
590 Alterations and Repairs	394,170	612	579,251
176 Dwellings (\$1,000 and up)	100,300	309	753,995
142 Dwellings (under \$1,000)	69,510	89	47,900
182 Miscellaneous	91,290	224	692,418
1130	\$1,502,929.00	1940	\$2,516,445.00

The following are some of the larger permits issued during this year:

Garneau Theatre	\$ 25,000.00
Vaseona Theatre	20,000.00
C. Woodward Limited	125,000.00
Auto Camp Extension	25,000.00
No. 2 Air Observers' School	210,000.00
Glenora School	48,000.00
Water Storage Basin, Power Plant	35,546.00
West Glen High School	119,045.00
King Edward Hotel	90,000.00
P. W. Woolworth Company	30,000.00
Dept. of National Defence, No. 18 B.F.T.S.	105,000.00
Industrial Steel Assembly Plant	80,000.00
Hudson's Bay Co. (Office Alterations)	17,000.00
Aircraft Assembly Plant	270,000.00
Addition to Civic Garage	36,000.00

It was expected that the value of building permits this year would show a shrinkage as compared with the two preceding years, which included the two large department stores, but fortunately there was no diminution, but rather an increase and undoubtedly the happiest feature of this increase was in the number and value of residential permits. Over \$780,000.00 was expended on this class of construction, covering 400 units, and the need is still acute. Of considerable assistance in affording relief to the existing situation during the past three years, has been the loans made through the medium of the Home Improvement Plan for the renovation and enlargement of existing homes, but this can only be regarded as a palliative rather than a solution of the problem. In any case an announcement has been made recently that the Dominion Government will abandon its guarantee in this connection.

Unemployment Relief Makes Steady Progress Downward

The amount appropriated for the City's share of unemployment relief in the current year is \$200,000.00, and it is expected that the expenditure will be within this figure. The amount compares with a maximum of \$440,000.00 in 1936, since which time the reduction has been consistently maintained. During the past season, however, due to more work being available, the rate of decrease has been accelerated, and in the month of September the cost was down to less than \$200,000.00, as against more than \$40,000.00 for the same month in 1939, a reduction of more than 50% for this particular period. Under present conditions, the problem of relief is reducing itself to the matter of those who, through lack of employment during the past decade, are no longer 100% fit

to compete in the labor market, for whom special provision will have to be made.

Tax Roll Assessment Is Increased By Land Sales

This year there has been a greater movement in real estate than since 1930, reflecting the marked improvement in building conditions. Up until 30th September lands and improvements to the value of \$176,000.00 have been disposed of, as compared with \$150,000.00 for the same period last year. As a result of these sales, there has been added to the active tax rolls assessments to the value of \$383,130.00, which will become revenue bearing in 1941. At the present time there are Tax Sale Lands on the books of the City in the gross amount of approximately \$2,000,000.00. Since all loans against these have been expended in the general rate, as from last February, 1937, this asset is becoming of inestimable value to the City, as all revenue now derived from sales is available for current financing, and represents annually at present between 1 to 5% of the City's total income. As the City grows, so will the value of this asset.

Health and Safety Of Citizens Is Maintained

The general health of the City has been maintained under the guidance of the Medical Officer of Health. The incidence of epidemics has been lower than usual. Those interested may refer to the annual publication of the Board of Health which is printed each year.

Fire losses have been heavier to the end of September this year than for the same period in 1939. This is due mainly to a rather serious fire in one of the parking places. Apart from this loss the remainder has been held at a comparatively low level. Systematic drill for physical training of the Fire Department staff, and refresher courses in first aid, have been introduced during the year and these should add to the general efficiency of the Force.

The Police Department reports that more crime, such as safe breaking, burglary, etc., has been committed in the City this year, but most of the culprits, including some well-known criminals, have been arrested.

Four patrol cars and five motorcycles were equipped with short wave radio, and a transmitter was installed at the Central Police Station. This has helped the Department in the expeditious response to complaints and should make for increased efficiency.

Progressive Improvement Is Made By City Utilities

While some necessary extensions have been made in the utilities, construction work has been heavily reduced as compared with the previous two years.

Water Softening Plant Now Nearing Completion

A new clear water storage basin and a water softening plant are nearing completion at the Power Plant and it is hoped that soft water will be available before the end of the year.

The operation of the new turbine and boiler continues to show substantial reductions in running costs. The amount of energy delivered for distribution is about 9% over last year, which indicates a healthy business growth in the City.

An inter-change agreement was entered into with the Calgary Power Company whereby the City and the Power Company guarantee mutual emergency standby service in case of necessity. Stand-by service will only be given after regular customers are served. This has been done without the line charge previously demanded by, and paid to, the Company. The agreement will extend for two years beyond the duration of the war.

Electric Light and Power Distribution Extended To Suburban Areas

Street lighting has been improved at several points and the balance of the program will be completed later in the year.

Considerable electrical work has also been done at the municipal airport at the expense of the Dominion Government. New primary feeders and secondary extensions for light and power distribution to the various hangars and huts have been constructed, as well as a high voltage extension across the Canadian National Railway tracks to the new airplane assembly repair plant.

Light and power service has recently been extended to the suburban areas of Clover Bar and West Salsburg.

There has been an increase of 122% in power retailed and there are now 21,519 light and power customers, an increase of 14%.

Growth Passenger Traffic On Street Railway Noted

A very satisfactory growth in traffic is to be noted on the Street Railway Department. About half of this increase can be traced to the operation of the trolley bus services, particularly on the South Side, where the traffic has grown much in excess of the capacity of the present equipment. New equipment must have been in hand but for war conditions. Revenue is up \$26,852.00 and operating expenditures up \$11,062.90 over the corresponding period for last year. The total deficit for the system, however, is increased by about \$20,000.00, due to increased interest on debt for repairs.

The usual program of rebuilding and over-haul of equipment has been continued and the system generally is in good order to maintain safe transportation.

Telephone Department Has Increase In Subscribers

The total number of telephones in service was 19,124 which is an increase of 829 over the corresponding period of last year and is again a new record for the number of telephones in use. Total cash collections for telephone service is \$187,390.11 greater than last year.

A 300 line addition was installed in the West Exchange during the year and two other 300 line additions have been in order for the South and North Exchanges since early last

year, but are not yet installed due to war conditions, with the result that there is a waiting list of new applicants for service in these areas. This equipment is being manufactured in England and approximately 75 percent of it is on hand and the balance is expected in a few weeks.

Waterworks

The following are a few comparisons for the nine months' period in the Waterworks Department: Cash revenue is up 10% while total expenditure is slightly below last year. There is an increase of 24% in customers' accounts and water sold is up 24%. Nearly 50% more new services have been connected this year in comparison with 1939.

Renewal of wood, steel and galvanized mains and appurtenances has been about on a normal basis. A good deal of work has been done, especially in downtown districts, in the way of relining and modernizing the fire hydrants. Considerable construction has been done at the expense of the Dominion Government for extension of water mains, etc., in the vicinity of the airport.

Gas Company's Rates

As a result of representations made by the City Council in regard to possible reduction of gas rates, representatives of the Gas Company had several meetings with members of the City administration. It was finally agreed to make substantial reductions in the gas rates, which are now in effect. It is estimated that these reductions will aggregate about \$17,000.00 per annum.

Public Works Constructed By Engineering Department

The normal maintenance and operation of public works has been carried out.

82nd Avenue Bridge over Mill Creek was re-decked with reinforced concrete and the bridge painted. The new trestle on 124th Street at 91st Avenue was replaced and the deck surfaced with asphalt.

On Sunday, April 22nd, a heavy rain from the South caused considerable flooding in the Woodland and Fairview subdivisions. Surveys have been made in the area north of the City, with a view to diverting a portion of this runoff to the 80th Street tunnel sewer. Whatever construction is done will be carried out in conjunction with the M.I. at Sturgeon.

It will be necessary to give serious consideration to the completion of the Garneau Pump sewer, as well as to drain the Kermanshah district by tapping the existing pumpwell at 60th Avenue and 100th Street. Sewer mains, catch basins and disposal plants were operated without any undue difficulties.

Early this spring there was a period of several weeks when earth roads were almost impassable during the spring thaw, indicating the necessity of improving those where possible, by graveling or paving. The piling program on the main gravelled roads has reduced that complaint to a considerable extent.

The gravel pit was operated for the whole season and approximately 75,000 cubic yards of gravel were produced about half of this going to the airport for road construction.

The Airport was taken over as from August 1st by the Dominion Government in connection with the Empire Air Training Scheme. An expenditure of about \$1,000,000 has been made by the Government on the grading of the field, surfacing landing strips and the establishment of an Air Observers' School, Elementary Flying Training School and Aircraft Repair Buildings, with the necessary utilities, which have been extended by the City forces for the Dominion Government.

Due partly to war conditions and partly to weather conditions, the golf links and swimming pools showed a reduced patronage.

A new softball park was constructed on the South side of Kingsway, between 102nd and 103rd Streets, being property leased to the Softball Association. It is hoped this will meet the expanding needs of this sport.

A construction program of approximately \$25,000.00 has been carried out this summer, comprising local improvement work, summarized as follows:

Walks and Crossings	\$ 37,000.00
Grading, Graveling and Boulevarding	60,000.00
Paving	61,000.00
Bridges	39,000.00
Miscellaneous	18,000.00
Sewers and Drainage	36,000.00
	\$254,000.00

In addition about \$20,000.00 was spent in the partial rehabilitation of certain gravel roads and streets.

To be noticed in this year's report is the replacement of wood block paving on 97th Street, between Jasper Ave. and 104th Ave., with asphaltic concrete. This eliminates all the wood block paving which was laid in 1907 and 1908, and which has given long service under hard conditions. With the coming of the motor car, however, conditions were created which have caused it to be superseded by other types of paving the world over.

THIS CURIOUS WORLD

IF THE WILD ANIMAL LIFE OF NORTH AMERICA COULD BE RESTORED TO WHAT IT WAS SOME MILLIONS OF YEARS AGO, WHAT A TIME OUR BIG GAME SPORTSMEN COULD HAVE THIS FALL!

WYOMING HUNTERS COULD STALK OLD *BRONTOSAURUS*! HIS FORTY TONS WOULD BE EASY TO HIT, BUT NO CINCINCH TO LUG HOME.

OREGON SHARPSHOOTERS COULD USE ANTI-AIRCRAFT GUNS TO BRING DOWN THE FLYING *PTERANODON*, A CREATURE WITH AN 18-FT. WINGSPREAD.

A TANK GUN MIGHT BE USED ON THE *SAUROSCINCUS*, A WALKING DREADNAUGHT OF MONTANA.

TEXANS COULDN'T FISH THE GULF FOR SAIFISH, BUT THERE'D BE THE 10-FOOT LIZARD KNOWN AS *DIMETRODON*, CARRYING 4-FOOT SAILS.

IN KANSAS, FISHERMEN MIGHT TRY THEIR LUCK AT LANDING THE 60-FOOT SEA LIZARD, *MOSASAURUS*.

THE SOUTH DAKOTAN WHO COULD CATCH AN *ARCHÆON* WOULD HAVE A SUPPLY OF SOUP FOR YEARS. THIS TURTLE HAD A SHELL 12 FEET LONG.

IN COLORADO, HUNTERS COULD PUMP LEAD AT THE THICK SKULL OF *TRICERATORS*, GIANT VEGETARIAN DINOSAURS! AND WHAT A TROPHY HIS HEAD WOULD MAKE.

FRECKLES AND HIS FRIENDS

WHAT ON EARTH ARE YOU TWO DOING?

MAKIN' SANDWICHES, MOM!

SANDWICHES?

WE SAW A GUY IN THE MOVIES MAKE SOME LIKE THIS!

YEAH, AND THE RITZ THEATRE IS OFFERING PRIZES FOR THE THICKEST SANDWICH MADE THIS WEEK IN SHADY-SIDE!!

OF ALL THE RIDICULOUS THINGS!!

WOOPS!

MINE IS STILL HOLDING TOGETHER!

I CAN JUST PICTURE YOU WALKING TO THE RITZ THEATRE WITH THAT!

OOPS! IT SLIPPED!!

LOOK WHAT YOU'RE DOING TO MY NICE CLEAN FLOOR! OF ALL THE CHILDISH THINGS!

BESIDES, MR. HARRISON NEXT DOOR SEEMS TO HAVE OUT-DONE BOTH OF YOU!

GOSH!

WHAT ARE YOU GOING TO DO, FRECKLES?

I WANNA FIND OUT HOW HE KEEPS THE FILLING FROM FLYING ALL OVER!

NO, MRS. HARRISON.... JUST ASK HIM HOW HE DOES IT!

HOW DO I DO, WHAT?
